EUROPE'S CHANGING NUCLEAR LANDSCAPE: FRENCH FORWARD DETERRENCE

NÉVINE SCHEPERS, *ETH ZURICH*, AUGUST 2026

The brief argues that the initiative could strengthen European deterrence, provided it remains closely connected to NATO's extended deterrence framework and is supported by long-term political commitment and practical cooperation among allies.

EU POLICY ENGAGEMENT ON ADVANCED CONVENTIONAL WEAPONS AND SANCTIONS COMPLIANCE IN THE SOUTH CAUCASUS

GIORGI GOGUADZE, *CENTER FOR STRATEGY AND
DEVELOPMENT*, AUGUST 2026

How can sanctions compliance and controls related to advanced conventional weapons contribute to confidence-building and stabilization in the South Caucasus? The paper explores regional vulnerabilities related to transit, re-export and dual-use goods, as well as the role of institutional capacity, regulatory frameworks and private-sector engagement in strengthening compliance.

STAFF REFLECTIONS: THE LEGACY OF HIROSHIMA AND NAGASAKI TODAY

ELN STAFF, AUGUST 2026

Eighty-one years on, the nuclear risks we face have evolved in profound ways: from renewed nuclear brinkmanship and eroding arms control to the rapid development of artificial intelligence and other emerging technologies that could reshape military decision-making in potentially dangerous ways.

CONCRETE MEASURES AND LANGUAGE ON ADDRESSING SPACE THREATS

The Vienna Center for Disarmament and Non-Proliferation (VCDNP) held a side event during the Third Session of the Open-Ended Working Group on the Prevention of an Arms Race in Outer Space (PAROS), bringing together experts and representatives to discuss practical measures for addressing threats to space systems. The event explored concrete proposals and possible language for strengthening responsible behaviour, reducing risks, and contributing to international efforts to prevent an arms race in outer space.
